Not all Jews support the claims of Zionists and the principles upon which Israel was founded. However there does appear to be widespread sentimental support for its fate, because it is a Jewish endeavour. So in a certain sense, the horoscope of Israel will represent the personality nature of the Jewish people as a whole, and also its spiritual potential. One of the benefits of the creation of Israel, is that it has served to integrate the various pockets of Jewish people around the world. Since the Divine Plan concerns the synthesis of humanity into an integrated whole, and then into the One Soul, one can see the positive side of this.

The Jews have been banned from proceeding upon the spiritual path, which means that the Ascendant as the doorway to the Soul realm is barred to them. It functions purely upon a personality level, at least for now. The personality of Israel will express itself primarily through its links to the past – via the Moon, and through its struggle to realise its identity in a hostile world – the Sun.

A. The Moon:

1. It represents patterns from the past which control behaviour in the present. These are lingering psychic scraps and memories of past disappointments, unfulfilled hopes and dreams, fear-based reactions to danger, etc. When triggered, they arise from the unconscious like ghouls from the past and control conscious perception, distorting truth and reality.
2. The moon is in the most powerful position in the chart. It is located in the royal sign of Leo, in the 10th house of worldly power and status, conjunct the MC pointer of important goals.
3. This makes the Moon (the past) very influential in the affairs of Israel.
4. The powerful Moon informs us that the habits from the past are very deeply ingrained in the unconscious and instinctual behaviour of Israel's people.

.. Materialism – a love of gold, and

.. The desire for power and glory – a desire for a return of the days of King Solomon, the desire for Greater Israel.

These have been brought forward into the present, and dominate Israeli life and direction.

5. The aggressive and arrogant nature of the ancient Israelites has also been resurrected. As the Bible recounts, they slaughtered “every, man, woman and child.” The personality words for Leo are *“let other forms exist, I rule.”*
6. The Moon is widely conjunct Pluto, the planet of death. Israel struggled to be born. On the day after its creation as the Moon moved over Pluto, Israel was attacked by its Arab neighbours.

On the higher level, Pluto conjunct the Moon symbolises the death of the past, the cutting away of these binding patterns. This will be very difficult because the past is so deeply rooted within Jews. But death will surely come – either through a psychological shift in perception (the desired method leading to change), or through dangerous attacks upon the people and homeland. Terrorist attacks are a manifestation of this combination.

B. The Sun in Taurus

The Sun represents the personality consciousness, and it is important that when focus is in the Moon – that is, stuck in the past as it is in this case, that it shifts to the Sun, which is to be consciously focused in the present.

However, there is a down-side, because the Taurus personality is naturally materialistic, and it is bullish, stubborn, and very aggressive. So in this case, the Sun – the consciousness of Israel:

1. Fully supports the goals of the past, of the Moon. (Sun sextile the MC).
2. It strengthens the religious ideals from the past (Sun square Saturn [Jehovah]),
3. .. and the ancient warlike nature. (Sun square Mars). The ancient Jews in the first solar system were ruled by Aries and the ram, which Mars rules.
4. This aggression is emphasised by the Sabian symbol for 24 Taurus – the Sun's degree. *"Indian, human scalps hanging at this belt, rides proudly."*
5. On the esoteric level, Taurus is ruled by Vulcan – who fashions the instruments of war, but there is a warning to those who would go to war. (*"Vulcan.. fashioning the instruments of war when war and conflict are the only means whereby liberation can come, though woe betide those through whom wars come."*¹)
6. The Sun is in the eighth house of "other people's money", which suits the entrepreneurial and materialistic spirit which distinguishes Jews. However, this is also the house of 'death and transformation', and from the higher level once again, it symbolises that the old ways must die, to be replaced by a new and higher way of living and being.
7. On a positive note, Taurus gives great strength and the ability to endure through all hardships. Its spiritual direction is *"I see, and when the eye is open, all is light."* This is the sign most commonly associated with Gautama Buddha and his message of Light. Gradually this illuminating light is permeating the consciousness of the advanced members of this fledgling nation, instilling the gifts of wisdom and insight. As this pool of light expands, then wisdom and enlightened decision making will begin to make its impact upon the consciousness of the race as a whole. Then 'the bull of desire' will be turned from its course, and directed into a new and higher direction – 'the Noble Middle Path'. When the goal is one of centralisation and cooperation rather than expansion, then will harmony and peace begin to settle on this ancient land. This is the higher promise which Taurus holds.

C. Libra Ascendant:

1. The exoteric ruler of the ASC and Sun is *Venus in Cancer in the 9H* of foreign countries Israel will try to convey an image to the world, that it is a fair and just society, and it will evoke sympathy and protection.
It has ulterior and hidden goals (Venus sq. Neptune 12H)
2. As mentioned previously, the doorway to the higher realms (symbolised by the Ascendant) is blocked to those Jews who are still bound by the tenets of their ancient religion and with its separative spirit - they are condemned to tread the material path – the Mutable Cross, for as long as it takes to make the required change.
3. But Libra on the Ascendant holds great promise, because it is the sign in which the transition to the Fixed Cross of Discipleship is made. Symbolically, it is the doorway to the higher realms, and this can be seen in its symbol. This is the opportunity which awaits that group of Jews who are still caught up in the crystallised thoughtform of Great Israel – entry on the Path and the end of the curse to remain possessed by their riches. But the doorway has always been open to any Jew who develops an inclusive consciousness.

4. This transformation will be aided by people of goodwill in the world ², who while firmness will be required ³ to bring about a political solution that is fair to both Jews and Palestinians, will assist both races with support, love and understanding.
5. As the more advanced and enlightened members of the Jewish race individually make the necessary inner transformation and become Soul illumined, their influence and light will help to bring about the required transformation in the consciousness of the race as a whole. ¹
6. Then rapid change will come about, because Uranus – esoteric ruler of Libra, will come into power in the collective psyche of Jews, and bring about its rapid awakening. It is the esoteric ruler of Libra – the Awakener and Initiator. But the most important event will be the eventual assimilation into the Kingdom of Man as a whole.
7. When Israel starts manifesting its spiritual destiny, its great contribution to humanity will be as a leader of peace and of cooperation, and to help establish laws which will lead to improved relations between all nations.

D. Transits and Progressions;

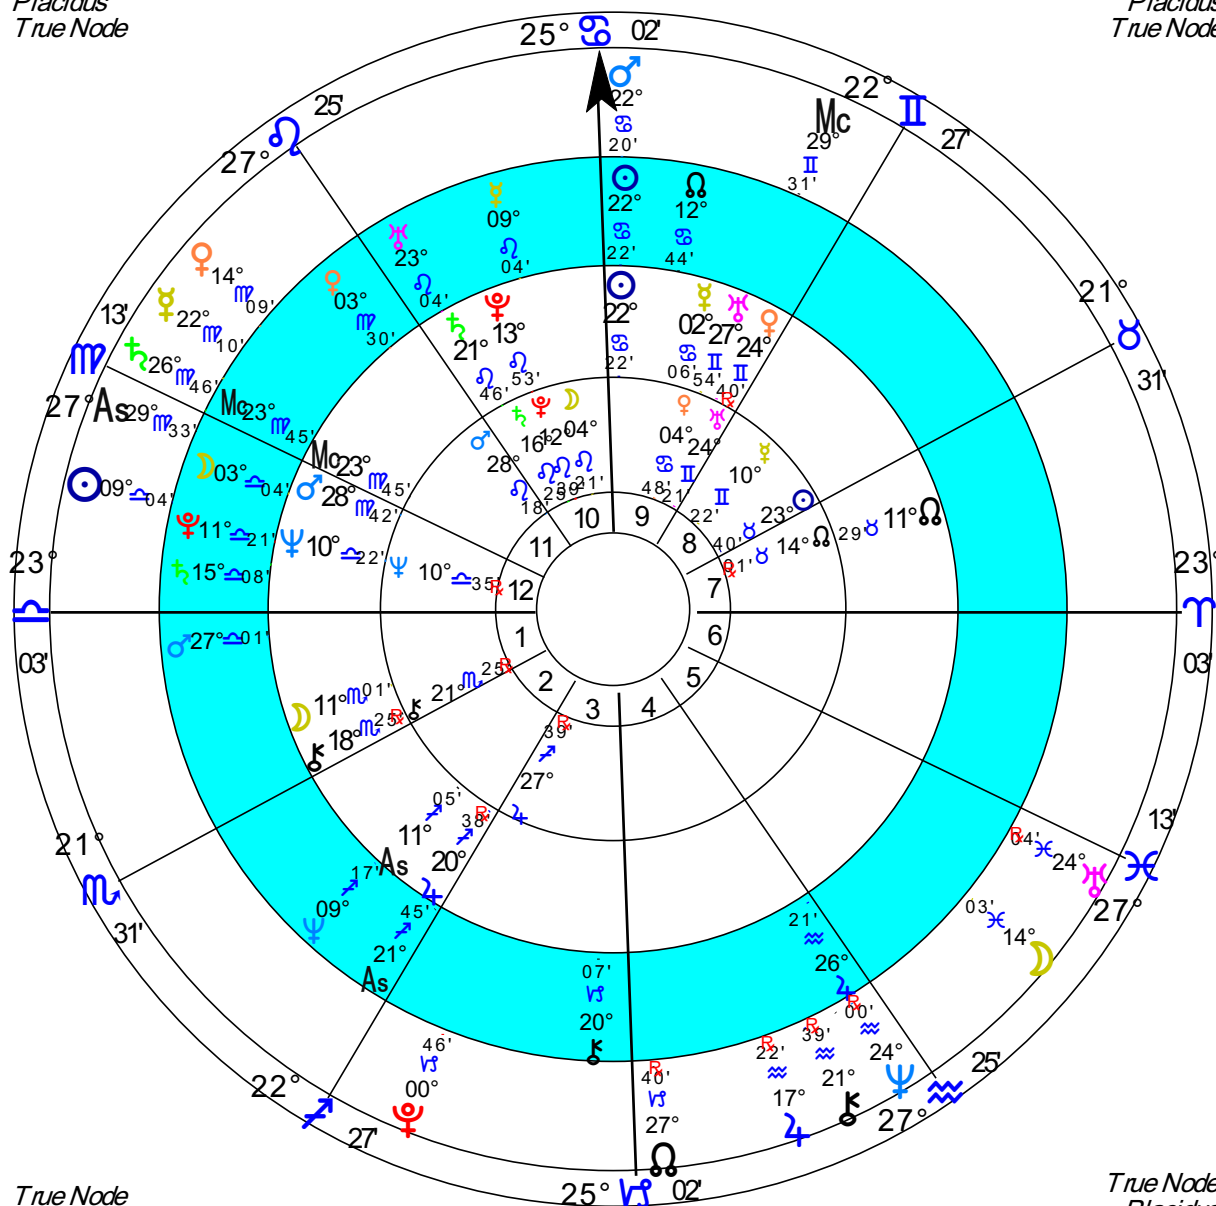

1. Israel is in a 25 year period where the ties from the past are weaker than they otherwise are normally, providing an excellent opportunity to move forward. (Directed [D] Moon travelling through the 12th house of hidden things.)
2. It is at a very important phase in its development. Right now it has the opportunity to make a radical change in its direction, if it sincerely negotiates a compromise in the Palestinian situation. (D. Uranus sextile ASC).
3. An opportunity is being provided for Israel to make constructive changes which will improve its standing in the world (progressed [P] Sun sextile its natal position), and take it in a new and positive direction. (P. sun conj. MC).
4. Israel is about to gain a higher profile in the world, and greater status, and this will continue for 25 odd years. (Progressed Sun Conj. MC and moving through 10th house). It is to be hoped that this is for all the right reasons from a humanitarian point of view.
5. The signs look good, that because of coercion coming from the USA ⁴, over the next three years a psychological shift could be made by Israel, seeing it let go of (part of) its dream to establish Greater Israel, and negotiate a peace contract of some sort. ⁵
6. Although no doubt unpalatable to many Jews, this crucial opportunity should not be missed, because time is running out. Israel's enemies (Mars as ruler of 7H), have been changing their methods of warfare and the development of nuclear arms is inevitable. (Mars is moving into Scorpio in three years, and it is ruled by Pluto who governs weapons of mass destruction.)
7. The planet of mass destruction Pluto will be moving into critical positions for Israel in 11 - 12 years time. (Pluto conjunct the ASC, and transit Pluto conjunct the IC).

If war with nuclear weapons comes, then it is likely that the rest of the world could be drawn in with serious consequences. The workers of Goodwill in the world must unite to bring about the best solution possible, before this happens.

The most positive outcome that could be achieved from this placement is that there is the birth of a totally new identity for Israel, and a restructuring of its form, and of its borders, because at the same time – the Sun representing Israel's identity, is progressing over the Moon.
